INTRODUCTION.

In preparation for the first number of the "Guide" we have tried to collect and condense the information which we thought would be of most benefit not only for the traveller but for the residents of the City of Ottawa and district. The information has been collected with great care and accuracy, coming from the fountain head in every case. If any inaccuracies are noted in the information contained in the guide we would deem it a favor to be made aware of same. We would gladly favor suggestions of information which would be of benefit both to the citizens of Ottawa and district and the travelling public as it is our one endeavor to make the guide a credit to the Capital City of the Dominion and beautiful Ottawa Valley. Write us in any case; we want to know what you think of it.

Our April Number will be in the hands of subscribers and all newsdealers on the first day of the month, it will be larger and the information renewed, chcek kept on all timetables and information which changes from month to month. If any change of train or steamboat timetables should occur before the first of any month a supplement will be mailed to subscribers and will be ready for sale at all newsstands.

We tender our thanks to our Patrons for their support and encouragement.

Business Directory Alphabetically according to Business.

A ACCOUNTANTS

Secrecy—Despatch—Accuracy.

The three cardinal points in an efficient audit are—"Secrecy, Despatch and Accuracy." The report, which an auditor should make after the checking of the accounts has been done, should be placed in the hand of the manager of a company alone. A company also should not deter the working of a business by being too long on the books. Rapidity as a requisite of good auditing is only seccond to Accuracy.

D DRUGGISTS

we often get

medicine bottles to refill, covered with labels of Winnipeg drug stores. They've been the rounds. When the first prescription is put in them in this store, however, they generally come regularly. Real quality at reasonable prices is the reason.

J. L. Rochester Limited,
214 Sparks Street, Ottawa.

What the Doctor Orders

may be a simple mixture that an inexperienced person can put up, or it may be something that requires the highest pharmaceutical skill. You probably cannot tell by the looks of the prescription what it is. For this reason be on the safe side and take all prescriptions where there are experienced clerks.

All of our clerks are graduates and skilled prescriptionists. What the doctor orders will be supplied if compounded at our stores.
